

Gross Pay Adjustments Outdated

E820-1, E820-2, E820-3

REPORT PURPOSE

OSPA produces these reports when we run an automated process to outdate a specific type of gross pay adjustment(s) on the P050 Gross Payment Adjustments.

E820-1 Gross Pay Adjustments Outdated as of YYYY/MM/DD is a before and after report that lists all of the employees in an agency who have entries on the P050 that will be / were outdated.

E820-2 Gross Pay Adjustments Beginning after YYYY/MM/DD provides a list of the employees who have entries with the same pay type(s) on the P050 that have a STRT DATE after the outdate listed on the E820-1.

E820-3 Duplicate Gross Pay Adjustments lists any duplicate GPA's on the P050 with the same STRT DATE and END DATE.

REPORT FREQUENCY

OSPS makes a special request for adjustments to be outdated. OSPA produces a set of "before" and "after" reports as part of the process. OSPS may just distribute the after reports to agencies.

OTHER INFORMATION

A common use of this process is to outdate the DPT and DPN entries for those employees who have domestic partner insurance coverage through PEBB. The imputed value for the DPT and DPN entries changes each plan year. OSPA will submit a request for OSPA to outdate the DPT /DPN entries before October run 1. OSPA will
