⁽¹⁾ Savings are applicable to the selected non-low-income beneficiaries in our study. Low-income beneficiaries would experience higher savings, with the specific level of savings depending on their income. Results for baskets with generic and/or therapeutic substitutes are reported, if generic substitutes are available and lower the cost of the original market basket.

⁽²⁾ A negative percentage indicates savings from the PDP compared to national cash prices.

⁽³⁾ The % savings with generic substitutes reflect the savings available through the plans that were originally ranked lowest-cost, 10th lowest-cost, and plan with the lowest premium. Source: Medicare Prescription Drug Plan Finder, 10/12/06.

⁽⁴⁾ The % savings with generic and therapeutic substitutes reflect the savings available through the plans that were originally ranked lowest-cost, 10th lowest-cost, and plan with the lowest premium. Source: Medicare Prescription Drug Plan Finder, 10/12/06.

⁽¹⁾ Savings are applicable to the selected non-low-income beneficiaries in our study. Low-income beneficiaries would experience higher savings, with the specific level of savings depending on their income.

^{(2) &}quot;G" indicates a generic drug; all other drugs are brand-name drugs.

⁽³⁾ Cash prices reflect prices actually paid by cash-paying customers at retail pharmacies, including discounts or promotional offers customers may receive. Source: Vector One: National (VONA) from Verispan; Variables: Retail Dollars and Extended Units by Cash Method of (4) Annual cost includes deductible, premium, and cost-sharing. The prices for the baskets with generic substitutes reflect the savings available through the plans that were originally ranked lowest-cost, 10th lowest-cost, and plan with the lowest premium based on the original drug (5) A negative percentage indicates savings from the PDP compared to national cash prices.
